

“Wild” Side of Blended and Personalized Learning Conference Schedule Overview

June
13th and 14th, 2017

June 13th

Session Choices, Presenters, and Summary

8:30-9:30

Whole Group Introduction and Layout of the Day

Marcia Kish- DSD Professional Development

Join us for the welcome session and overview of the two-day conference.

Giraffe Feeding- Starting at 9:00

Zoo Keepers- Columbus Zoo and Aquarium

Time to Feed our Friends

Take a moment to feed the giraffes, post a photo, and learn more about the Heart of Africa from the Zoo Keepers

Student Posters

Adler Eubanks- Olentangy Schools

Kayden and Kolton Minnich- Layfaett Schools

Maysen and Alexis Jahnke - Chardon Schools

Breakfast- Starting at 9:00

Location: The Watering Hole

Breakfast

Breakfast is included with the registration fee. If you have any dietary needs, please let one of us know at the start of each day so we can get you the right meal ticket.

9:30-10:30

15-Minute Rapid Learning (Starting Times 9:30 and 10:00)

Location: Cheetah Round Tables in the Center of the Room

Whitney Robinson- Pickerington Local School District

Emily Carle- Squirrels

15 minute sessions with Whitney on top tech tools for the blended and personalized learning classrooms. 15-minute session with Emily Carle on Class Hub, a tech tool that monitor the devices within the classroom setting.

30-Minute Session (Starting Times 9:30 and 10:00)

Location: Savanna Stage

Marcia Kish- DSD Professional Development

Six Steps to Personalized Learning

Are you ready to take on the Personalized Learning Pedagogy but don't know where to start? This session will break down the Personalized Learning concepts into six easy to deploy steps. With this guide in hand, any school can start to navigate towards the establishment of a personalized learning environment.

30-Minute Session (Starting Times 9:30 and 10:00)

Location: Lion Stage

Tabatha- Ridgedale Elementary

Learning is Evolving, Get on the Ball with Sphero!

Come meet Sphero and see what a difference it will make in your classroom! In this session you will get to learn how a small, spherical robot can ignite passion, motivation, and drive in your students of all ages. Come hear how a 5th grade math teacher has used a set of Spheros in her classroom to spark problem solving, perseverance, and teamwork all while learning math! You will have the opportunity to drive and program Sphero in a few short minutes. You don't want to miss out on this opportunity to get your hands on Sphero.

Make and Take

Location: Zebra Station

Jan Minnich- DSD Professional Development

Reduce, Reuse, Recycle

Learn how to make and create reusable lunch bags.

Make and Take

Location: Zebra Station

DSD Professional Development

The 4C's of Blended and Personalized Learning Classroom

Learn how to make and create choice boards for the blended and personalized learning classrooms with this hands-on activities. Explore with different types of learning tools and then build your own choice board to take back to your classroom. Choice board activities are good for all grade levels.

Think Tank (55 Minute Session)

Location: Giraffe Barn (to the left of the Savannah Stage)

David Wallace- Fairbanks Local Schools

BJ Thaman- Fairbanks Local Schools

Supporting Teachers in Blended Learning

This session is a Round Table Discussion, not a presentation. How can administrators and instructional support staff help build a culture of Blended Learning in their districts? What can we do to help our teachers and students experience success?

Think Tank (55 Minute Session)

Location: Observation Classroom (Outside deck)

Jena Cooper- DSD Professional Development

Blended Learning Overview Phase 1

New to Blended Learning or just starting? Learn the in's and out's of how to get started in the first Phase of a Blended Learning Environment. We will go through the key components of Blending your Classroom and how to take baby steps to get there. If you started in the middle of the year or haven't really started into Blended Learning, this is a great review to get into the details of the "HOW" to start your year!

Classroom Lab (55 Minute Session)

Location: Warthog Classroom- (Front Door)

Sarah Share- Etna Elementary School

The Language Arts Blended Classroom

In this session, educators will be participants in a blended learning classroom. They will move through the session as students would. This session will focus on using data to drive instruction, Newsela, and establishing rotations in the classroom via a checklist.

Classroom Lab (55 Minute Session)

Location: Giraffe Classroom (to the right of the Lion Stage)

Jay Young- Fairfield County ESC

The Novel Side of STEAM: Connecting the Design Process to Literature

Learn how to incorporate concepts of STEAM into novel studies in language arts focusing on identifying and exploring solutions to problems in literature, while also reviewing the design process. Take away resources and begin work on a lesson plan.

Fireside Chat (Starting times 9:30-10:00)

Location: Outside Fire pit

LeaWood Elementary

10:30-11:30

15-Minute Rapid Learning (Starting Times 10:30 and 11:00)

Location: Cheetah Round Tables in the Center of the Room

JJ Janikis- Newsela

Michelle Eaton-MSD of Wayne Township

15 minute sessions with JJ Janikis on how to implement current events articles into the blended and personalized learning classrooms. 15-minute session with Michelle Eaton on Bright Ideas for eLearning Design. As teachers develop more online content for students as part of a blended learning environment, a new educator skill set becomes necessary. The same rules for good face-to-face teaching do not always easily transfer online. Teachers must understand content, pedagogy and e-learning design. You'll learn some tips and tricks to think like an instructional designer.

30-Minute Session (Starting Times 10:30 and 11:00)

Location: Savanna Stage

Marcia Kish- DSD Professional Development

Nuts and Bolts of the Blended Learning High School Classroom

Are you ready to learn how to transform your classroom into a blended learning environment? Do you want to see how blended learning could work in a high school environment? If so, this session, "The Nuts and Bolts of Blended Learning", will provide you with a toolbox of tips, tricks, and techniques to transform any subject into a blended learning classroom. Learn from high school teachers that have been blending, watch high school classrooms in action, learn about technology tools that will work with your students, and most importantly, walk away with an implementation plan for next year that will gradually transform the classroom into a blended learning environment.

30-Minute Session (Starting Times 10:30 and 11:00)

Location: Lion Stage

Brittany Rios- Southwest Licking Schools

Student Pace, Place, & Path Experiences Through Weekly Checklists

Having trouble keeping your students accountable? This session will showcase how to motivate your students to take ownership of their learning while still holding them to high expectations. These weekly checklists are developed through pre-assessments to achieve each students' learning goals. Learn from an elementary educator that has established a blended learning environment for all students in an ELA classroom.

Make and Take

Location: Zebra Station

Jan Minnich- DSD Professional Development

Reduce, Reuse, Recycle

Learn how to make and create reusable lunch bags.

Make and Take

Location: Zebra Station

DSD Professional Development

The 4C's of Blended and Personalized Learning Classroom

Learn how to make and create choice boards for the blended and personalized learning classrooms with this hands-on activities. Explore with different types of learning tools and then build your own choice board to take back to your classroom. Choice board activities are good for all grade levels.

Think Tank (55 Minute Session)

Location: Giraffe Barn (to the left of the Savannah Stage)

Marc Walls- Northeast High School

Seesaw and RTI: How to Extend the Constraints of Intervention Beyond the School Day

Participants will learn how one high school used Seesaw as a platform for delivering all Response to Instruction and Intervention materials for at risk students. I include a detailed model guiding you on the path to bringing RTI outside of school to anywhere a student wants to learn.

Think Tank (55 Minute Session)

Location: Observation Classroom (Outside deck)

Jena Cooper- DSD Professional Development

Choice Boards

How do you create a choice board? How do you use them? What do you use them for? Get your answers at this awesome session on giving your students voice and choice and ownership of their learning. Hear about the successful ways teachers have used their choice boards and the different methods to pick which works best for you and your students!

Classroom Lab (55 Minute Session)

Location: Warthog Classroom- (Front Door)

Amber Rodgers- LeaWood Elementary School

Social Studies Blend

-Using Google Classroom to: Access Prior Knowledge, Exit Tickets, Test, Reports, Platform to Ask Questions, and Monitor Student Progress.

-Various websites that are utilized in the classroom for research, projects, and testing.

Classroom Lab (55 Minute Session)

Location: Giraffe Classroom (to the right of the Lion Stage)

Pickerington Middle School Teacher

Blended Learning from a Middle School Teacher

Fireside Chat (Start times 10:30 and 11:00)

Location: Outside Fire pit

Etna- 4th and 5th Grade Building from Southwest Licking Schools

11:30-12:00

15-Minute Rapid Learning

Location: Cheetah Round Tables in the Center of the Room

Dave Frayser- PearDeck

Jeff Kish-Little Bits

15 minute sessions with Dave Frayser on how to implement interactive presentations with the students using the program PearDeck. Attend this session and get a free 6-month trial for PearDeck. 15-minute session with Jeff Kish on how to use Little Bits in the K-12 classroom setting.

30-Minute Session

Location: Savanna Stage

Marcia Kish- DSD Professional Development

MIDDLE School Blend (M**ixing** **I****n** **D****igital** **D****e****vices in L****e****arning E****n****vironments)**

Looking for ways to use the devices in a middle school classroom? Learn about how MIDDLE (M**ixing** I**n** D**igital** D**e**vices in L**e**arning E**n**vironments) can transform your classroom. This session will focus in on tools, techniques, and programs that Middle School students can use in a blended learning environment. Teachers will walk away with an implementation strategy, lesson plan templates, and technology tools to drop into any Middle School classroom. Join us for this amazing session on MIDDLE School Blend.

30-Minute Session (Starting Times 10:30 and 11:00)

Location: Lion Stage

Beth Kabes- DSD Professional Development

Blended Learning from the Top Down

It takes a village to move the classrooms into the 21 Century Learning environment. Beth will showcase how she has helped administrators to understand the importance of blended learning, technology integration, and the process of making a change within a school district.

Make and Take

Location: Zebra Station

Location: Outside Fire pit

Pickerington

12:00-1:00

Lunch

Location: Watering Hole

Lunch will be provided both days during the conference. If you have any special dietary needs, please let us know at the start of each day so we can make sure to provide you with the right lunch ticket.

Scavenger Hunt

Take time to explore and learn about new tech tools, the Zoo, and the DSD Professional Development team by completely the scavenger hunt with a partner.

1:00-2:00

Whole Group Keynote with Brian Seymour

Brian is the Director of Instructional Technology for Pickerington Local School District. Brian is currently leading Pickerington Schools through 1:1 process. Brian is also leading the district through a change in pedagogy to adopt a brand of blended learned they have termed "Tradigital Learning." Brian is the 2017 ITIPOhio Outstanding Tech Admin of the Year. Brian was also named the Ohio's Making It Happen Award for 2017. Brian was named one of the Connected Educators of 2014 by Battelle for Kids. Brian is a member of the White House's CSforAll steering committee. Brian has also been named one of the ISTE Community Champions in assisting schools to integrate more tech into the classroom.

2:00-3:00

15-Minute Rapid Learning (Starting Times 2:00 and 2:30)

Location: Cheetah Round Tables in the Center of the Room

Jeff Kish- DSD Professional Development

Brian Seymour- Pickerington Local Schools

15 minute sessions with Jeff Kish on how to implement code.org into the blended and personalized learning classrooms. 15-minute session with Brian Seymour on more tech tools and tricks for the blended learning classroom.

30-Minute Session (Starting Times 2:00 and 2:30)

Location: Savanna Stage

Marcia Kish- DSD Professional Development

Elementary Center Activities with a Blended Twist

What's the difference between elementary centers and blended learning? This session will showcase the difference and provide you with an implementation plan on how to deploy blended learning through the three phases of blended learning. Learn from elementary educators that have established a blended environment, watch blended elementary classrooms in action, and explore tech tools that will knock your socks off.

30-Minute Session (Starting Times 2:00 and 2:30)

Location: Lion Stage

Beth Kabes- DSD Professional Development

The Coaches Eye for Blended and Personalized Learning

Learn about the seven principals of instructional coaching that will help to improve your blended and personalized learning classrooms. From how to provide feedback to becoming a coach that listens, this session will give you key take aways to implement for next year.

Make and Take

Location: Zebra Station

Location: Giraffe Barn (to the left of the Savannah Stage)

Michelle Eaton-MSD of Wayne Township

Destination: Innovation - A Journey to Blended and Personalized PD

To support innovation in classrooms, professional development should model similar next-generation instructional techniques. Blended and personalized professional development provides opportunities for collaboration, application, and additional support that extends past a traditional staff meeting. Additionally, rethinking the way adult learning is delivered in schools allows all staff to experience the benefits of innovative learning models.

Think Tank (55 Minute Session)

Location: Observation Classroom (Outside deck)

Jena Cooper- DSD Professional Development

Transition to the Next Level

Phase .5, Phase 1.5, Phase 2.5. YES!! There is a way to smoothly transition from a "Phase 0" to a Phase 1 and from Phase 1 to Phase 2! If you want to take baby steps and are ready to go to the next level, this session will give you the ideas of how to smoothly transition your students to having more ownership of their learning while clearly communicating your expectations of quality work and independent motivation!

Classroom Lab (55 Minute Session)

Location: Giraffe Classroom (to the right of the Lion Stage)

Angela Wojtecki- Nordonia High School

Take Charge of Your Own Professional Development!

There is never enough time to ever feel "caught up" in terms of an educator's professional development. Teachers are constantly inundated with new online resources and edtech trends and then given very little time to learn about them and try them out. However, we all know how critical it is to continually be learning about new resources in order to grow as educators. This breakout session will allow participants to learn about ongoing technology tools related to their own professional development such as Edshelf, Flipboard, Feedly, and Google Communities.

Fireside Chat (Start times 2:00 and 2:30)

Location: Outside Fire pit

Nordonia Local School District and Fairfield ESC

3:00-3:30

Whole Group- Prizes and Key Take Aways from the Day

End the first day of professional development with the key take aways from all of the participants. Prizes and awards will be handed out during this time as well.

June 14th

Session Choices, Presenters, and Summary

8:30-9:30

Whole Group Introduction and Layout of the Day

Marcia Kish- DSD Professional Development

Join us for the welcome session and overview of the two-day conference.

Animal Exhibit- Starting at 9:00

Zoo Keepers- Columbus Zoo and Aquarium

Time to Meet our Friends

Take a moment to meet and greet animals from the Columbus Zoo and Aquarium.

Student Poster Sessions

Adler Eubanks- Olentangy Schools

Kayden and Kolton Minnich- Layfaett Schools

Maysen and Alexis Jahnke - Chardon Schools

Breakfast- Starting at 9:00

Location: Watering Hole

Breakfast

Breakfast is included with the registration fee. If you have any dietary needs, please let one of us know at the start of each day so we can get you the right meal ticket.

Blended and Personalized Coaching Strategies

Your school is going with blended and personalized learning and you want to help coach or lead your teachers through the process. Take time out of your schedule to learn how to become a blended or personalized learning coach. Walk away with a starter copy of the coaching binder.

30-Minute Session (Starting Times 9:30 and 10:00)

Location: Lion Stage

Vickie Hoffman and Rich Baord

Professional Development that Works!

In education it is difficult to meet the professional development needs of all staff members and find a time to provide the PD with no disruption to instructional time. North Union is a small, rural district with just under 200 staff members. North Union Local Schools is in its first year of NUniversity, a professional learning environment for all staff members. In the first 7 months we have had more than 1,600 in attendance at over 120 sessions. Sessions have been developed to meet the needs of teachers, administrators, bus drivers, grade level teams, secretaries and much, much more. We are excited to share our success story from year one and share our exciting plans for year two.

Marcia Kish- DSD Professional Development

Blended and Personalized Learning for the Gifted Classroom

Spend time learning how to provide rigorous activities for gifted students in the K-12 blended and personalized learning environments.

30-Minute Session (Starting Times 10:30 and 11:00)

Location: Lion Stage

Megan Moore- Ridgedale Local Schools

Getting Started with Project Based Learning

Project Based Learning or PBL allows students to take a topic and run with it! Students work in small groups to answer a focus question that their teacher has given them. After teaching background information on the topic, the teacher steps back and becomes the observer and/or supporter throughout the project. Students can use their creativity and knowledge to answer the question the teacher has given them. When finished, students present their projects to their classmates as well as someone from the community or field of study. Students really enjoy these type of projects where they control their own learning.

Transform Your Classroom with Seesaw!

Seesaw is a digital learning portfolio for students that puts them in charge of their own education. Teachers will learn how to introduce Seesaw to students. They will have a chance to sign in as students and upload notes, photos, videos, links, files, or digital drawings and "appsmash" with various apps. They will also be introduced to ways to model digital citizenship in the classroom as they share, like, and comment on each others' work. They will come away with ideas to capture fluency, math talk, word work, graphing, book reviews, and more using Seesaw. It's a game changer!

Fireside Chat
